

LESSON PLANS

UNIT 1 SECTION 1 ENERGEIA - ENERGY DIARY ACTIVITY

Student Objectives

The student will:

- identify the six types of energy.
- create an energy diary that gives examples of each of the six types of energy.

TAAS Objectives

The student will:

- demonstrate the ability to conduct scientific inquiry, draw inferences from data, and communicate results.

TEKS

(8.2) **Scientific processes.** The student uses scientific inquiry methods during field and laboratory investigations.

The student is expected to:

- b. collect data by observing and measuring;
- d. communicate valid conclusions.

Integrated Physics and Chemistry

(2) **Scientific processes.** The student uses scientific inquiry methods during field and laboratory investigations.

The student is expected to:

- b. collect data by observing and measuring;
- c. organize, analyze, evaluate, make inferences, and predict trends from data; and
- d. communicate valid conclusions.
